Education

Ramrao Adik Institute of Technology, D. Y. Patil Deemed to be University **July 2022 – Present**
B.Tech in Computer Engineering (Minor: Data Science), CGPA: 7.23/10 *Navi Mumbai, India*

Pace Junior Science College **July 2020 – May 2022**
12th Grade, Percentage: 57.5% *Thane, India*

Arunodaya Public School **May 2018 – April 2020**
10th Grade, Percentage: 77.4% *Thane, India*

Experience

QSpiders **Jan 2026 – Present**
Data Science Trainee

- Completed training in Python and SQL; currently learning Power BI, Excel, and Python data science libraries (pandas, NumPy, Matplotlib, among others).
- Applying data skills to query, analyze, and draw insights from structured datasets.
- Building familiarity with the full pipeline from raw data to reporting.

Projects

SportMatrix | AI-Powered Football Performance Analysis System **Feb 2025**

- Built a football performance analytics system using Python and Flask.
- Implemented TOPSIS algorithm to rank players across multiple performance metrics.
- Trained a Decision Tree model to predict optimal team formations.
- Developed interactive dashboard with real-time visualizations using Matplotlib.
- Secured 4th place in TECHNOVATE 2025 Software Project Competition.

Credit Card Fraud Detection | Machine Learning Project **Aug 2024**

- Implemented data preprocessing, feature engineering, and model tuning using Python libraries such as Pandas, Scikit-learn, and Matplotlib.
- Achieved 93% model accuracy while optimizing precision and recall to effectively reduce false positives in fraud detection.
- Performed Exploratory Data Analysis (EDA) on transaction data to identify patterns indicative of fraudulent behavior.
- ***Tools Used: Python, Pandas, Scikit-learn, Matplotlib, Streamlit***

Comic Face Translation using Pix2Pix GAN | Deep Learning Project **Jan 2026**

- Developed an image-to-image translation model to convert real human faces into comic-style portraits using Pix2Pix (cGAN).
- Trained on 10,000 paired images (Face2Comic dataset) with U-Net generator and PatchGAN discriminator for high-quality stylization.
- Built and deployed a real-time Streamlit web application for interactive face-to-comic transformation.
- ***Tools Used: Python, PyTorch, GANs, Streamlit***

Technical Skills

Programming: Advanced Python, Java, C, JavaScript
Databases: SQL (Joins, Aggregations, Window Functions)
Data Analysis & Visualization: Power BI, Excel
Web: HTML, CSS, Flask
Tools: Git, Docker
Core Concepts: Data Structures, OOP, Statistics, Data Cleaning, EDA, Machine Learning (Beginner)

Leadership

ISTE RAIT **July 2025 – June 2026**
Event Managing Head *Navi Mumbai, India*

- Led cross-committee coordination to prevent scheduling conflicts and improve collaboration efficiency.
- Managed end-to-end planning, logistics, budgeting, and on-ground execution of technical events.
- Supervised team members and delegated responsibilities for smooth event operations.
- Addressed 300–500 first-year students introducing institutional initiatives and committee operations.
- Conducted technical workshops on Web Development and Python for 40+ participants.

Achievements

Football: Championship Winner (2019), Runner-up (2018).

Chess: Secured 4th place in inter-school tournament (2018).

Hobbies

Football, Chess, Reading
